Turn “I Can’t” Into “I Can”

OUR SCHOOL TRIP PROVIDES THE PERFECT LOCATION FOR:

- Resilience life skills.
- Team-work, experience being part of a team, learning to delegate, lead, guide, mentor & follow whilst having fun.
- Mind-set & mental attitude boosts leading to new confidence.
- Making new friends, camaraderie.
- Appreciation that exercise and fitness can be fun & enjoyable.

These learning skills are examples of all aspects of our pedagogical practices here at Nuclear Races Wild Forest. Pedagogy in this context can be evidenced by the very nature of learning in a natural environment which is educational, experimental, experiential and stimulating.

OBSTACLE ACTIVITY CENTRE

"I would thoroughly recommend Wild Forest for a school trip. Our students and staff had an amazing time, it was fantastic to see all our students involved in all of the activities. The staff at Wild Forest encouraged and reassured them at all times, seeing students helping and reassuring each other was fantastic. All the activities were really planned out and taking 250 students was not a problem for them. Organising the trip with Sam`s support at all times made it easy for our school to book and we are certainly booking again for next year."
